**Products/Services:** We provide services to help the two-step distribution industry more effectively market the products they sell.

trDIGITAL is the only “Distributor First” focused agency in the OPE industry. We build custom marketing programs aligned with the distributor’s objectives to facilitate selling, execution, and education at the dealer level. Over the past fourteen years our team has honed our approach to maximize alignment and marketing ROI across the entire 2-step channel.

No two brands, distributors or dealers are identical, so cookie cutter solutions fall short in the OPE industry. trDIGITAL has a complete toolbox of marketing tools to choose from, including, SEM, SEO, programmatic display, video & audio (geo, transactional, social, demographic & psychographic targeting), lead generation, digital outdoor and direct mail.
