

TOM RUGG

SVP & President, Power & Energy
Solutions Business Units

As a global senior executive with extensive P&L and functional leadership experience, Tom has a proven track record of driving sustained sales and profit growth by effectively linking strategy, talent and operations. His successes span a diverse set of environments including: organic growth, M&A, turnaround and consolidation management; public and private equity ownership, in a range of industries including consumer products, manufacturing and industrial products as well as a diverse set of channels and regions, including expatriate assignments. As a leader, Tom is highly communicative, metrics and results driven, a creative problem solver and extremely passionate about building organizational capability and winning cultures that enable breakthrough performance.

Tom is currently SVP and President at Briggs & Stratton responsible for the Power and Energy Solutions business units. With over 20 years of experience, he has consistently transformed organizations to achieve step change performance.
